

Newsletter report

This year we again published two newsletters, February and July.

The main content continues to be human interest stories. It is pleasing to see the number of work places and special interest groups regularly contributing to the newsletter continuing to grow.

Thanks to both the regular contributors and those who have contributed on a one-off basis. Also once again thanks to Harold Henderson and Catherine Cameron for their careful proof-reading and to Catherine McKenzie for putting the newsletter onto the NZSA website.
