

Science Fairs Report to New Zealand Statistical Association Annual General Meeting 2019

The Science Fairs have all now run and I have had notes of thanks from most of them. I was unable to contact two fairs and there seems to be some combining of the smaller ones. Statistics New Zealand have informally said that they will not be continuing with this sponsorship for next year and beyond. I would suggest that:-

- The President contact SNZ to formally ask for continuing support. This is being actioned
- If the support of SNZ is not forthcoming we up our prize funds to \$100 per fair and get the certificates printed ourselves.
