

R users group report

29 November 2021

Prepared by Shirley Wu

Due to Covid, the groups were not able to arrange too many in-person meetings in 2021.

The Auckland group hosted one meeting:

R Shiny dashboards in production - stories from the battlefield

<https://www.meetup.com/Auckland-R-Users-Group-AKLRUG/events/277695893/>

12 May 2021, Presented by Dr Uli Muellner

What it takes to make your R Shiny dashboards ready for production - from stakeholder engagement and design considerations to data pipelines, hosting and performance tuning.

The Wellington group also hosted one meeting:

<https://www.meetup.com/Wellington-R-Users-Group-WRUG/events/279789780/>

12 August 2021, Presented by Paul McBride and Jing Liao

The challenge and journey in learning to code in R Shiny, and using the open source Prophet forecasting tool.

Using R for Covid-19 vaccination reporting in prisons

We are constantly looking for presenters for interesting R and statistics related topics to share with the R community. Please contact your local R user groups if you are keen to present!
