

Science Fairs Report

16 November 2022

Alasdair Noble

The Science Fairs went ahead this year and they were all successful. There are a couple of fairs that have not restarted since the Covid lockdowns and Canterbury did not eventually run theirs last year so held over the prize money till this year.

I would very much like to find someone to pick this role up next year will definitely be my last so someone to work with me next year would be good.
